

Velvet Green

Ancient woods are tranquil havens full of enchantment, transformation and of liminality, (of being on the "threshold" of two planes). To experience this is to walk on Velvet Green.

For I'll be by your side in the land
of twilight;
In your dreams, I wait for you.
I'll stay with you until the sunrise
finds us.
Come walk with me on Velvet Green.

Velvet Green is a Dry Irish Stout. A light bodied beer with a roasty aroma filled with dark malts of roasted and toasted barley. Velvet Green has delicate roasted flavors that are not overpowering. It also has a nice balance of hoppiness that ends with a clean, dry finish.
