

# Whispering Embers

*It's an ideal end to another seamlessly perfect day. The fire has died down to glowing embers that seem to hiss and whisper secrets into the night as their heat cradles you in a comforting warmth that drives all your worries and cares away.*

*It is amazing how the scent of smoke can evoke feelings of warmth and well-being. Whispering Embers' aroma is reminiscent of the sweet smoke of a campfire as its embers reveal all in their enchanting whispers.*

Whispering Embers is our Rauch Bier, an Oktoberfest lager made with Beechwood smoked malts from Bamberg, Germany. Mild aroma is sweet with a bit of smoke and fruit. Flavor is nice, sweet and smoky, with some dark fruit notes. Finish is dry and smoky.
